

The below is a list of all liner shipping / container ship operators within the axs-alphaliner data base. Please visit www.axs-alphaliner.com to access our comprehensive online data base which will provide you with:

- interactive lists of all container liner services, including vessel deployment and full port rotations – searchable, sortable and complete with customisable excel and pdf export functions
- container vessel particulars and capacities / technical data / ex-name history
- news coverage of container terminal developments
- news coverage of the latest trends and developments within the container shipping industry, including reports on service and route changes, vessel orders and deliveries, mergers and acquisitions, throughput and transport volumes, as well as cooperation agreements and slot exchanges
- fleet statistics by owner / by operator / by area of trade
- the latest shipyard order book for container vessels and multipurpose vessels
- sales, purchase and charter information / vessel positions / fixtures
- aggregate data, diagrams and graphs for the top-100 operators

list of container vessel owners and owner fleet lists within the axs-alphaliner data base
